Attn: Bruce Khaleghi, Unit Coordinator
Floyd Tower East, Suite 1154
205 Butler Street, SE
Atlanta, Georgia 30334

Dear Mr. Khaleghi:

As discussed between you and Naval Submarine Base's Mr. John Garner, our December 15, 1993 letter, containing our Draft Revised Proposed Consent Order for the remediation of Site 11 (Old County Landfill), is our official proposed revision of the Consent Order which you previously forwarded.

The revisions we propose further address the steps of the RCRA Facility Investigation process and we feel more fully protect the interests of all parties involved. We are prepared to execute the Consent Order if these revisions are acceptable.

If you are not in agreement or do not understand our proposed revisions, we would propose a meeting at your office to review the language we propose. Our consultant, ABB Environmental Services, and Navy legal and technical representatives would attend.

Also, as discussed between you and Mr. Garner on December 22, 1993, we would suggest that, due to the holidays, you consider another extension of the time to execute the Consent Order until January 22, 1993.

We appreciate you and your staff's assistance on this important project. Please contact Mr. John Garner at 912-673-8845 for any further information on this issue. Correspondence should be addressed to "Commanding Officer, Naval Submarine Base, 1063 USS Tennessee Avenue, Kings Bay, Georgia 31547-2606."

Sincerely,

M. J. PATTERSON
Lieutenant Commander, CEC, USN
Assistant Public Works Officer
By direction of the
Commanding Officer
